

Power Strip
Model: **AK-SP-05A**

Product code	AK-SP-05A
Product type	Power Strip
Series	Surge protector
Supply voltage	250 V / 50 Hz
Mechanical switch	Yes
Ground wire	Yes
Cable length	1.8 m
Anti-interference protection	Yes
RFI filter	To 10 dB
Maximum energy absorption	150 J
Fuse	10 A / 250 V
Response time	25 ns
Maximum impulsive power	4500 A
Maximum energy load	2500 W
Socket type	French plug (pin) CEE 7/5
Number of sockets	5
Material	ABS
Product color	Black
Display	None
Temperature	5 - 50 °C
Package	EcoBox
Product size (L x W x H)	296 x 48 x 36 mm
Package size (L x W x H)	375 x 95 x 46 mm
Net weight	290 g
Gross weight	357 g
CE compatibility	Yes
FCC compatibility	No
RoHS compatibility	Yes
REACH compatibility	Yes
EAN code	5901720130167
Warranty	24 months

Description

Akyga® AK-SP-05A high-quality surge protector with **25ns response time**, designed to protect electronic devices against basic power problems, especially in case of voltage jumps.

Problems with current can occur at the least expected moment and can result in loss of unsaved work sessions, loss of important data, and, in the worst case scenario, permanent hardware damage. For this reason, even with a sufficient number of sockets, it is a good idea to equip your assortment with a decent anti-overvoltage stripe that protects your PC and other devices such as TV, stereo or audio-video equipment. Thanks to **five CEE 7/5 French-type sockets**, the AK-SP-05A protects against damage, high frequency noise, short circuits and overloads of **up to five devices simultaneously** with a maximum load of **2500W**. The maximum pulse current is **4500A**. The strip has a **manual switch** that allows to cut off the power without disconnecting the cord from the mains. Additionally, it is equipped with a 10A / 250V automatic fuse. The **1.8m** long cable is useful in case of restricted access to the power source.
