Description

The Akyga AK-USB-44 is a USB 3.0 **external drive cable**. At one end it has a **micro USB B connector**, found on older models of external drives. On the other is a **USB-C connector**, which is commonly used in mobile devices. Thanks to this, the cable makes it possible to connect an SSD or HDD to a modern computer as well as a smartphone or tablet. It is a convenient solution that allows **fast data transmission of 5 Gbps** and **charging with up to 15 W**.
