

C6374

Motor shape	Body diameter	63mm	Body height	70mm
	Shaft diameter	10/8mm	Flat thickness	9/7mm
	Length of output shaft	30mm	Flat length	28mm
	Top mounting hole distance	44/30mm	Bottom mounting hole distance	22mm
	Mounting hole size	M4*4		
	Banana head	4. 0/3. 5	weight	812g
	Accessories			
Motor performance	Maximum power	2800W	Hall angle	60
	No-load current	0. 8-2. 2A	Maximum current	120A
	Recommended voltage	24-36V	kv value	170-330kv
	No-load speed	4080-7920	Torque	2-3N/m
	No-load speed = voltage * kv value			
kv value increases, the speed increases, and the torque decreases; the kv value decreases, the speed decreases, and the torque increases
