Description

Akyga® AK-ND-C04 is a practical **USB-C adapter** for charging laptops. It allows you to quickly and easily change the **USB-C connector** to a **4.0x1.7 mm plug**. It is the ideal way to charge devices with older port types. With the adapter, you only need one **USB-C PD** adapter to charge any portable device with a USB-C port and a **Lenovo** laptop with a 4.0x1.7 mm port. What's more, the adapter has compact size, making it ideal for carrying in a bag or suitcase.
It is worth remembering that the USB-C adapter does not increase the power of the charger it is used with. Therefore, before using it, make sure that the power adapter has enough power to power our device.
