Description

The **Akyga® AK-SC-E07 Tesla charging adapter** is a small and handy accessory. It will allow you to charge your **Tesla** electric car using a **Type 1 (J1772)** charger. It is ideal for those who have brought an electric car from overseas to Europe. With it, you can easily charge your Tesla using generally available EV charging stations. What's more, the adapter has a very robust housing that protects it from mechanical damage. On the other hand, compact design makes it easy to store and transport.

The adapter is compatible with Tesla Model S / X / 3 / Y cars manufactured for the US market.
