Description

The **Akyga® AK-ND-84 car power adapter** is designed for **DELL** laptop users who need a reliable power source on the road. This device allows you to power your device directly from a **12 V** car cigarette lighter socket, making it ideal for travel, long journeys or situations where access to a standard electrical outlet is limited.

Optimum Power and Safety

The **DELL laptop charger** delivers a voltage of **19.5 V** and a current of **3.33 A**, translating to a power output of **65 W**, ensuring stable and safe power supply for your laptop. With precisely chosen technical parameters, the charger guarantees compatibility with many **DELL** laptop models, matching the quality of original accessories.

Dedicated Connector for DELL Laptops

The laptop charger is equipped with a standard **4.5 x 3.0 mm connector** with an additional pin, which guarantees a secure connection to your laptop and minimises the risk of accidental disconnection. This connector is perfectly matched to **DELL** laptops, offering convenience and safety in use.

Long Cable for Greater Convenience

The **DELL laptop power adapter** offers a practical cable length — **55 cm** of power cable plus an additional **110 cm** of laptop cable, giving you the freedom to use your laptop while charging in the car. With this cable length, users can comfortably work or relax in front of their device's screen.

Convenience and Mobility DELL Laptop Power Adapter

The power adapter is compact and lightweight, making it ideal for frequent car travellers. The compact size allows you to easily stow the power adapter in your bag or glove box without taking up too much space, and the robust construction ensures long-lasting use.
