

Power Strip
Model: **AK-SP-08C**

Product code	AK-SP-08C
Product type	Power Strip
Responsible Entity	Hugo Brennenstuhl GmbH & Co. KG, Tübingen 72074, Seestraße 1-3, Germany, service@brennenstuhl.com
Supply voltage	230 V / 50 Hz
Mechanical switch	Yes
Ground wire	Yes
IP Rating	IP20
Cable length	3 m
Anti-interference protection	No
Maximum Load	3500 W
Socket type	French plug (pin) CEE 7/5
Number of sockets	8
Material	ABS
Product color	Black
Display	None
Temperature	5 - 50 °C
Package	EcoBox
Product size (L x W x H)	507 x 710 x 980 mm
Net weight	0.87 kg
CE compatibility	Yes
FCC compatibility	No
RoHS compatibility	Yes
REACH compatibility	Yes
Warranty	24 months
Manufacturer	Brennenstuhl

Description

The Brennenstuhl Akyga® AK-SP-08C power strip is a robust and stylish solution, designed to power multiple devices simultaneously. This power distributor offers **eight earthed sockets**, perfect for powering household appliances and audiovisual equipment. Additionally, its solid construction is made from highly durable plastic, ensuring resistance to everyday use.

Functionality and Safe Energy Management

The Brennenstuhl Akyga® AK-PS-08C power strip is equipped with an **illuminated switch**, allowing you to easily switch on and off all connected devices with the touch of a button. This gives you full control over power consumption and the ease of unplugging appliances without having to remove the plugs. In addition, the 45° socket arrangement is ideal for cables with angled plugs, making it much easier to organise your space and allowing you to conveniently connect a variety of appliances.

Practical Solutions for Ease of Use

The AK-PS-08C power strip is equipped with a **3-metre cable**, which allows you to freely arrange your devices even at a greater distance from the power source. Thanks to this, connecting a power supply to a laptop, printer and various types of chargers will be extremely convenient. What's more, the power strip has practical mounting brackets that make it easy to fix the strip in a stable place, which is perfect for home offices and workshops.

Durability of the Power Strip

The AK-SP-08C power strip supports a maximum **load of up to 3500 W**, which allows for the safe connection of even more demanding equipment, such as computers, consumer electronics, as well as small household appliances. Thanks to its highly insulated sockets and **IP20 protection rating**, the power strip provides a high level of safety in dry home environments, which is ideal for spaces where powering multiple devices in one place is essential.
