

Power Strip
Model: **AK-SP-06C**

Product code	AK-SP-06C
Product type	Power Strip
Responsible Entity	Hugo Brennenstuhl GmbH & Co. KG, Tübingen 72074, Seestraße 1-3, Germany, service@brennenstuh.com
Supply voltage	230 V / 50 Hz
Mechanical switch	Yes
Ground wire	Yes
IP Rating	IP20
Cable length	3 m
Anti-interference protection	No
Maximum Load	3500 W
Socket type	French plug (pin) CEE 7/5
Number of sockets	6
Material	ABS
Product color	Black
Display	None
Temperature	5 - 50 °C
Package	EcoBox
Product size (L x W x H)	423 x 71 x 111 mm
Net weight	0.76 kg
CE compatibility	Yes
FCC compatibility	No
RoHS compatibility	Yes
REACH compatibility	Yes
EAN code	4007123121991
Warranty	24 months
Manufacturer	Brennenstuhl

Description

The Akyga® **AK-SP-06C Brennenstuhl power strip** is designed to power several devices simultaneously. It is equipped with **six earthed sockets**, which allows for convenient connection of household appliances and consumer electronics. What is more, the special plastic of which it is made guarantees high resistance to breakage and damage. An additional advantage of the AK-SP-06C power strip is its compact and elegant design, which fits perfectly into modern interiors. It not only has a practical function, but also an aesthetic one, without disturbing the harmony of the room.

Illuminated Switch

The Akyga® AK-SP-06C power strip is equipped with a two-pole, **illuminated switch**, which allows you to easily switch on and off all connected devices with a single button. This convenient solution provides full control over power consumption and allows you to quickly unplug your devices without having to remove the plugs.

Thoughtful Solutions for Convenient Use

The Brennenstuhl AK-SP-06C power strip has a **3-metre cable**, which provides freedom of space arrangement around the electrical socket, allowing you to conveniently place equipment where you need it most. Additionally, discreet **mounting holes** allow the power strip to be securely fixed to a wall or furniture, improving organisation and minimising the risk of accidental cable disconnection.

Stability and Increased Protection

The robust housing of the AK-SP-06C skirting board provides stability and increased protection against accidental contact. Sockets positioned **at a 45° angle** are also ideal for angled plugs, allowing efficient use of the available space, eliminating the risk of blocking neighbouring sockets. What's more, the power strip supports a maximum **load of up to 3500 W**, making it suitable for connecting both electronics and domestic appliances, ensuring safety and high performance.

Power Strip – Reliability for Years to Come

The AK-PS-06C power strip is the ideal solution for both the home and the office - wherever ergonomics combined with shatterproof and modern design is important. With this power strip, you can rely on stable operation for your devices while maintaining order and style in any workspace or relaxation area.
