Package	UniBag
Product size (L x W x H)	70 x 100 x 07 mm
Package size (L x W x H)	100 x 160 x 08 mm
Net weight	42 g
Gross weight	47 g
CE compatibility	Yes
RoHS compatibility	Yes
REACH compatibility	Yes
EAN code	5906708750092
Warranty	24 months

Description

The **Akyga® AK-USB-57 4-in-1 USB cable** is a versatile solution designed with the modern user in mind. The cable is equipped with two multi tips, offering both a **USB Type-C connector** and a **Lightning adapter**, allowing for seamless charging of both Apple devices and devices with a USB-C port. On the other side, there is a **USB Type-C connector** and a **USB-A adapter** that can be connected to a wider range of devices such as laptops, computers or wall chargers, increasing compatibility and convenience. This makes the cable suitable for any situation - whether at home, in the office or on the move, offering the user complete flexibility to quickly charge their devices.

Fast Charging and Flexibility with Multi Terminals

The AK-USB-57 cable supports various fast charging standards, tailored to the connector combinations. This makes it an ideal choice for charging modern smartphones, tablets and even laptops, ensuring your devices are charged quickly and safely. Whether you need to charge your iPhone, iPad or laptop with USB-C, this cable will meet your expectations.

- When connected **USB-C to USB-C**, the cable can deliver a **maximum power of up to 65 W**. This makes it ideal for charging modern laptops, tablets and smartphones, including iPhone 15, iPhone 16 and Samsung Galaxy S24.
- For the **USB-C to Lightning** connection, the cable provides **up to 27 W** of power, making it an excellent choice for Apple devices such as the iPhone 12, iPhone 13 and iPhone 14, as well as older iPhone 6, iPhone 7, iPhone 8 and iPhone 9.
- For the **USB-C to USB-A** connection, the power is **up to 22.5 W**, which will work well for charging a wide range of devices such as smartphones and tablets.
- For the **USB-A to Lightning** connection, the maximum charging power is **12 W**, making the cable ideal for older iPhone models such as the iPhone 6, iPhone 7, iPhone 8 and iPhone SE.

Durable and Stylish Design

The **charging cable** is covered with a durable **nylon braid**, ensuring its longevity and mechanical damage. The flat design prevents the cable from tangling, making it significantly easier to use on a daily basis. In addition, the modern design makes the cable fit perfectly into any environment - from an elegant desk to a car on the road.

Data Transmission in the USB 2.0 Standard

In addition to the charging function, the cable also supports **data transmission** at a speed of up to **480 Mbps**, allowing you to conveniently transfer files between devices. This is a practical and functional solution for anyone who expects reliability and speed in one product.

Versatility and Modernity in One

The **AK-USB-57 4-in-1 USB cable** is a reliable accessory that will meet the expectations of even the most demanding users. Perfect for both charging and data transfer, it provides full compatibility with a wide range of mobile and computer devices.
