EAN code	5906708750733
Warranty	24 months

Description

Akyga® AK-USB-65 is **a silicone USB-C to USB-A cable** that combines modern design and reliable functionality. Its pastel purple colour makes it stand out from traditional accessories and adds character to any space. It is the perfect solution for those who want to combine practicality with a touch of individual style.

Fast data transfer and charging in one

The 1-metre purple silicone USB-C cable is USB 2.0 compliant, **enabling data transfer** speeds of up to 480 Mbps. It allows you to quickly move photos, videos or documents and charge your smartphone, tablet or wireless headphones without any slowdowns.

Soft silicone coating — everyday comfort

The silicone insulation makes the cable very flexible, resistant to kinks and comfortable to use. It does not get tangled, fits easily in your bag and is pleasant to the touch. The high-quality copper core ensures stable charging and minimal energy loss.

LED backlight for convenience

A practical LED built into the USB-C end makes it easy to connect devices after dark — just one glance is enough to find the right connector.

Versatility and unique appearance

USB-A and USB-C connectors make the cable compatible with a wide range of devices, from Android smartphones (Samsung, Xiaomi, OPPO) to the latest iPhones. The purple colour gives it a unique, modern look.
