RoHS compatibility	Yes
REACH compatibility	Yes
EAN code	5906708750702
Warranty	24 months

Description

The Akyga® AK-USB-62 is a **silicone USB-C cable** that combines functionality and minimalist design. Its classic black colour scheme makes it a perfect match for any set of accessories, from desktop docking stations to mobile power banks. It is a practical solution for those who value both style and reliability.

Stable charging and fast data transfer

The AK-USB-62 USB-C cable is manufactured to the USB 2.0 standard, **enabling data transfer** at speeds of up to 480 Mbps. This allows you to transfer photos, videos or documents in a matter of moments, while simultaneously charging your devices — smartphones, tablets or wireless headphones — without any problems.

Durable and flexible silicone

The durable **silicone coating** makes the cable not only pleasant to the touch, but also resistant to abrasion and bending. Its flexibility prevents the cable from tangling and makes it easy to store in a bag.

LED backlight for extra convenience

The Akyga® AK-USB-62 cable is **equipped with a subtle LED** on the USB-C plug. This makes it easy to find the connector even in a dark room or during a night-time car journey.
