

Atom EchoS3R

SKU:C126-ECHO

Description

Atom EchoS3R is a programmable IoT voice interaction controller designed for intelligent voice control and human-computer interaction scenarios. It is powered by the **ESP32-S3-PICO-1-N8R8** main control chip, supports 2.4GHz Wi-Fi wireless communication, and comes with 8MB Flash and 8MB PSRAM to meet diverse application development needs, offering excellent performance and scalability. The audio system adopts an **ES8311** mono codec, combined with a high-sensitivity **MEMS microphone** and an **NS4150B** power amplifier, enabling clear voice pickup and high-fidelity audio output to enhance voice recognition and interactive experiences. It is suitable for voice interaction scenarios such as AI voice assistants and smart home control.

Tutorial

UiFlow2

This tutorial will introduce how to control the Atom EchoS3R device through the UiFlow2 graphical programming platform.

Arduino IDE

This tutorial will introduce you to programming and controlling the Atom EchoS3R device using the Arduino IDE.

Atom EchoS3R XiaoZhi Voice Assistant

This tutorial introduces how to use the Atom EchoS3R device to build a personal voice assistant application by flashing the XiaoZhi Voice Assistant firmware through M5Burner.

Home Assistant

This tutorial shows how to add Atom EchoS3R into Home Assistant and build your own Voice Assistant for your smart home.

Features

- Integrated ESP32-S3-PICO-1-N8R8 main controller
- 8MB Flash and 8MB PSRAM
- ES8311 mono audio codec
- MEMS microphone
- Class D amplifier
- Integrated infrared transmitter
- Expandable pins and interfaces
- Development Platform
 - Arduino
 - UiFlow2
 - ESP-IDF
 - PlatformIO

Includes

- 1 x Atom EchoS3R

Applications

- AI Voice Assistant
- Smart Home
- Human-Computer Interaction
- Audio Playback

Specifications

| Specification | Parameter |
|----------------|---|
| SoC | ESP32-S3-PICO-1-N8R8 @ Dual-core Xtensa LX7 processor, up to 240MHz |
| PSRAM | 8MB |
| Flash | 8MB |
| Power Input | DC 5V |
| Audio Codec | ES8311: 24-bit resolution, I2S protocol |
| Microphone | MEMS microphone, Signal-to-Noise Ratio (SNR): 65dB |
| Speaker | NS4150B amplifier chip + 8Ω@1W 1318 cavity speaker |
| Operating Temp | 0 ~ 40°C |
| Product Size | 24.0 x 24.0 x 16.8mm |
| Product Weight | 9.3g |
| Package Size | 85.0 x 65.0 x 17.0mm |
| Gross Weight | 15.6g |

Learn

Enter Download Mode

To flash the firmware, press and hold the reset button (about 2 seconds) until the internal green LED lights up, then release it. The device is now in download mode and ready for flashing.
