

## DM-LCD35RT LCD Module

DM-LCD35RT LCD module consists of 3.5 inch LCD and driver board. This module is designed for Embest DevKit407 and DM-STF4BB board.

### Figure

### Description:

- Module Outline dimensions (W\*H):98.0mm \* 76.0mm
- LCD dimension: 3.5 Inch (diagonal)
- LCD active area (W\*H): 70.0mm \* 52.6mm
- Interface: 16bit 8080 parallel system interface
- Driving IC: SSD2119
- Display format: 320 \* 240
- Color: 262K colors

- Operating temperature: -10~60°C
- Storage temperature: -20~70°C
- Power consumption: 0.18A@5V
- Touch screen: 4-wire resistive touch screen
- **Backlight: PWM control**
- **Board support: DevKit407 DM-STF4BB**

### Hardware Dimensions
